MADRID, April 16. (AP)—Spain settled down today and went back to work after a prolonged and little less than delirious holiday of celebrating the new republic.

The new cabinet was tackling the formidable mass of details and general problems which were demanding the attention of the government.

Communist disturbances which had flared at Seville, Barcelona and Bilbao seemed to have subsided.

Order continued in Madrid. The police were the red arm bands of the republic and republican or red flags floated everywhere. It seemed strange to see no civil guards on the streets. They were still on duty, but they were being made as inconspicuous as possible on the streets because

QUEEN VICTORIA ARRIVES IN PARIS IN TEARFUL STATE

EXPECTS KING TO JOIN HER
THURSDAY NIGHT; NO
VISITORS ALLOWED

PARIS, April 16. (AP)—Spain's king and queen, driven from their throne at Madrid in a movement which has culminated in establishment of a Spanish republic, arrived today in Paris.

Sad faced and tearful, Queen Victoria, who left an English home to become the bride of King Alfonso, reached Paris with five of their children this forenoon.

She retired to a hotel apartment where she was said later to be in a state of virtual prostration as a consequence of the strain of the past four days.

She shut herself up in her bedroom and would see no one upon her doctors' advice that she must have absolute rest and quiet until tonight, when she is expected to be landed from the cruiser Principe Alfonso at dawn today.

With Alfonso's arrival, a few minutes before midnight, the entire Spanish royal family will be gathered in Paris with the exception of the third son, the Infante Don Juan, who went to Gibraltar from Cadiz yesterday and may remain there a day or so.

Both the king and queen from the moment they reached France made emphatic declaration that Alfonso did not abdicate, the throne of Spain was not vacant, but merely suspended until such time as he decides whether the people want him or wish to cast him aside.

"The king has not passed over his powers. He has merely left his country," Victoria insisted to newspapermen who journeyed with her from Hendaye, on the frontier, to Paris.

It was a grief-stricken queen, who could hardly believe what had happened to them, who came

Funds Believed Lost in Crash Reported Found

COTTONWOOD FALLS, Kas., (AP)—Recovery of the \$58,000 which H. J. Christen of Chicago was carrying in the plane crash near Bazaar, Kas., fatal to him, Knute Rockne and six others, was reported today to Dr. Jacob Hinden, coroner, in a letter from Murray Miller, Christen's attorney.

"I am happy to state that we have located over \$58,000 in cash in a safety deposit box," Mr. Miller wrote.

After the tragic crash of the trans-continental and Western Air line, tri-motored Fokker March 31 guards were placed about the wreckage while officers searched for the money which Christen was known to have withdrawn from a Chicago bank on the eve of his departure for California.

Provisional President of Spain Sends People of America Greetings

(Niceto Alcala Zamora, provisional president of the new Spanish republic, today addressed a message of friendship and cordiality to the American people through The Associated Press. In his message he expressed his government's decision to elect a parliament and to work through representative government.)
(Copyright, 1931, By The Associated Press.)

BY NICETO ALCALA ZAMORA,
Provisional President of the Spanish Republic.

MADRID, April 16. (AP)—I am especially glad to send to the peoples of the Americas, through The Associated Press, a message of cordiality and my earnest salutations. We are now a government similar to yours. There is a closed bond through our freedom and similar form of government.

Spain will honor her history as the nation which discovered the lands where all the republics from Alaska to Tierra Del Fuego are situated.

If there was any difference between Spain and the Americas, it was simply a difference of institutions. As these have disappeared I believe that we shall be able to understand each other better and to love one another even more.

With respect to Portugal, our relations will be even more cordial and there will be more confidence. I emphasize especially the confidence which should reign between both peoples.

It is not given to me as yet to discuss whether Spaniards in the Americas should have representation in the Cortes. It is too premature to speak of this now but when the moment comes the government will study the question with interest.

Our program is to elect a Cortes which, with complete sovereignty, should decide what the future policy of the government of Spain shall be. All the acts of the provisional government will be submitted to the Cortes as elected by the people.

At this time it is difficult to

formulate a program as all the measures we may take will have to be by mutual accord after due deliberation by the ministry. Regarding the Catalan problem, the government is ready to concede the Catalonians their national aspirations. This is a question of sentiment with the Catalonians, it is also a question of right. And when we speak of the Catalonians I believe that the other provinces of Spain are entitled to the same prerogatives. They are all within the legal right to enjoy a system which may allow them, within the Spanish confederation, to enjoy full political autonomy. Full political autonomy will be conceded Catalonia.

Head Catalanian Republic Heard

(Colonel Francisco Macia, provisional president of the Catalan Republic, today made the following statement to The Associated Press.)

BY COL. FRANCISCO MACIA,
Provisional President of the Catalan Republic.

(Copyright, 1931, By The Associated Press.)

BARCELONA, Spain, Apr. 16. (AP)—We have been the first to proclaim a republic in Spain. The Catalan Republic was proclaimed with the wishes of the republican spirit inherent to all Catalonians and to the long-felt aspirations of national autonomy.

The proclamation was made with the spirit of cordiality and with animosity toward none. I am in continuous touch with President Alcala Zamora of Spain. We want to live in an atmosphere of brotherhood and cordiality with all the peoples of Spain, establishing a federal republic within the communion of democratic ideals felt in Catalonia.

At the present time it is my ambition to strengthen the republican regime. There is no danger ahead and work has been re-established.

BOND PROPONENTS FAIL TO SECURE PASSAGE OF BILL

GREER REDISTRICTING MEAS-
URE IS FINALLY PASSED
LATE WEDNESDAY

AUSTIN, April 16. (AP)—The legislature spent most of yesterday on the highway bond issue and congressional redistricting. The house engrossed the \$212,000,000 highway bond resolution, proponents finding themselves twenty votes short of the necessary two-thirds majority needed to pass the proposition.

The senate had a busy day, spending most of the time amending and attempting to amend the Greer congressional redistricting bill preparatory to substituting it for the Metcalfe plan from the house. The switch was made late in the afternoon and the Greer bill passed.

Dispute was expressed in the house as to the fate of the highway bond resolution. Too, proponents of the resolution were taken somewhat aback at the proffer of the opponents, who sent up cries of "vote, vote," just as soon as the proposal was explained.

The resolution must receive 100 votes before it can be submitted to the people. The house went about its work on the resolution with the avowed intent, it seemed, of spending as little time as possible on it.

Bond Measure

Quake Prediction Sent People Outside

OAXACA, Mexico, April 16. (AP)—Most of Oaxaca's residents spent their second night in the open last night, afraid to sleep in their homes because of a prediction that an earthquake would occur.

The hills about the city, recently devastated by earth tremors, were dotted with tents and other improvised shelters while the city itself was deserted. Most stores were closed.

A prediction, published in a Oaxacan newspaper, said a serious quake would occur early this week.

PANTAGES AND FOUR OTHERS ARE HELD FOR VICE TRIALS

DEFENDANTS DISMAYED AT
DECISION LOWER COURT
MAGISTRATE

SAN DIEGO, Cal., April 16. (AP)—Alexander Pantages and four co-defendants were held today for trial in superior court on charges that they had subjected girls of high school age to acts of immorality.

A justice court yesterday ordered the wealthy theater owner and his alleged associates tried after hearing the testimony of Miss Lydia Nitto and Miss Helen Livingston.

The decision marked the second time within 18 months Pantages has been held for trial because of alleged crimes against young women.

In October, 1928, he was convicted in Los Angeles of assaulting Eunice Pringle, 19-year-old dancer. He has been granted a new trial and is at liberty under bond of \$100,000.

A year after his trial in Los Angeles, he was alleged in complaints filed here to have participated in a party at a fashionable San Diego hotel in which Miss Nitto and Miss Livingston allegedly were procured through a "vice bazaar."

John P. Mills and Jesse Shreve, former business associates of Pantages, were alleged to have attended the party with him and were tried at the same time.

William Jobelmann, Pantages' former press agent, and Mrs. Oliver Clark Day, accused of supplying the girls, complete the list of defendants. The defense offered no witnesses.

Mills faces similar charges in Los Angeles in another case and Jobelmann and Mrs. Day are accused there of operating a bureau in which young women were supplied to wealthy men.

Pantages and his alleged associates expressed dismay at the decision, but indicated they believed they possessed evidence which would win them acquittal.

A charge of criminal attack against Shreve was dropped because Miss Livingston failed to testify he attacked her, but he still faces charges of conspiracy to violate the juvenile act.

FIRST MEETING OF RECENTLY CREATED BODY HELD TODAY

COMMITTEE FOR CONSERVATION
TEXAS OIL, GAS AND
NATURAL RESOURCES

AUSTIN, April 16. (AP)—Holding their first meeting this morning, members of the newly created Texas oil, gas and natural resources conservation committee elected Governor Ross S. Sterling chairman.

C. V. Terrell, chairman of the railroad commission, was named vice chairman and Representative Howley of Albany, was selected secretary. While the meeting was for the purpose of organization, members drew two resolutions and adopted them before recessing subject to call of the chairman.

In the first, the governors, the chairmen of the railroad commission and the legislative committee of Oklahoma, Kansas, Arkansas, Louisiana, California, New Mexico and Wyoming, were advised of Texas' proposed work and were asked to send representatives to a meeting of the committee here May 1.

The second stated it would re-

NEW INHERITANCE TAXES PROPOSED IN TEXAS SENATE

AUDIT OF BOOKS OF STATE
HIGHWAY DEPARTMENT
IS ORDERED

AUSTIN, April 16. (AP)—The senate passed today a bill by Representative Petch of Fredericksburg which proposed that unmarried persons sharing in the estate of others should pay an inheritance tax. Legacies to persons living outside the state also would be taxed.

As on other house bill days, the senate found its calendar crowded with bills of a local nature.

A resolution by Representative Johnson of Canby, which proposed an amendment to the constitution to permit inauguration of new and lower rates in the redemption of lands or property sold at public sale was passed.

Persons seeking to redeem their lands or property might do so by adding 25 percent to the delinquent tax sale price if repossessing the property within one year and 50 percent if within two years under the Johnson plan. The present statutes require double the amount of the delinquent tax sale price in repossessing the property.

A resolution by Representative Harrison offering an amendment to the constitution to permit retired army men to hold office was passed.

The resolution was amended to conform with the provisions of a senate resolution, passed earlier in the session, which proposed that retired army, navy, marine and national guard officers and enlisted men should hold office and vote in Texas.

A resolution by Representative Adkins proposing an amendment

American Flier Plans Crossing Pacific Ocean

TOKYO, April 16. (AP)—Thomas Ash, American flier, announced today he expected to start a trans-Pacific solo flight from Japan late in May, planning to land either in Seattle or Tacoma within 40 hours.

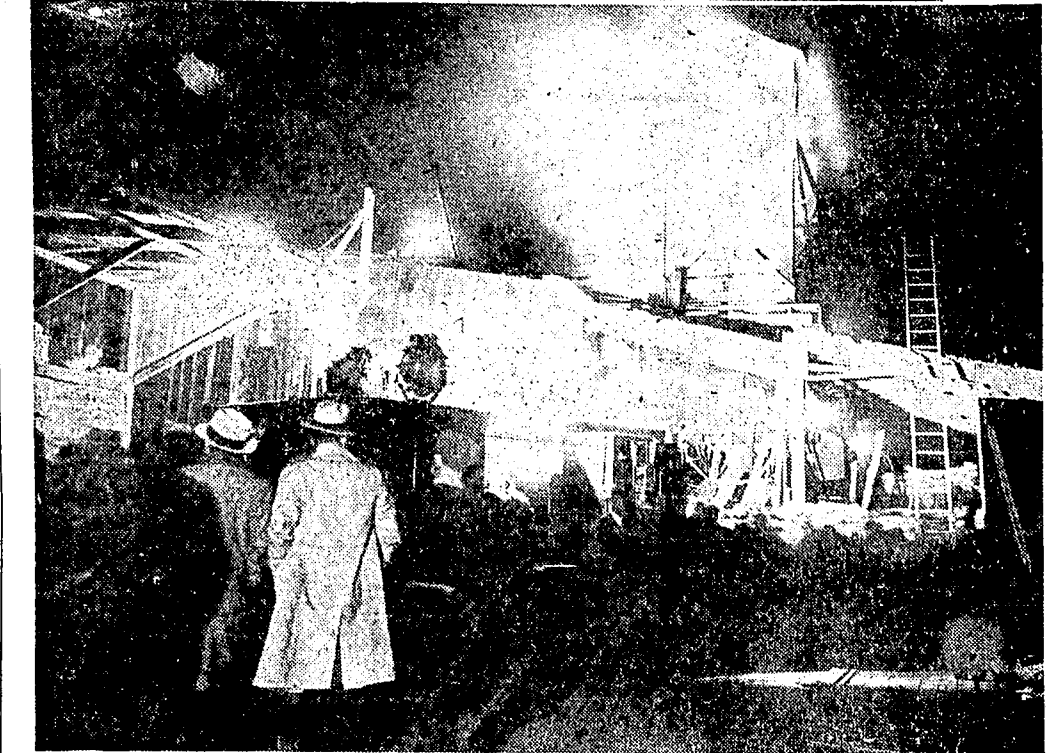

Ash said he would follow the Great Circle Steamship route, and, since the flight would involve two nights in the air, he would select a moonlight period.

The flier said he had selected the city of Tacoma, a plane brought here last year by Harold L. Bromley for a projected trans-Pacific flight which never materialized, for the forthcoming attempt. He said the name of the plane would be changed to the "Pacific."

WOMEN MEET AT DENTON
DENTON, April 16. (AP)—The Women's Missionary Union of Texas entered the second day of the district 12 convention here today. Attendance was expected to be 300.

An address by Mrs. W. B. McGarrity featured the opening session yesterday.

TEN DIE IN CHICAGO TUNNEL FIRE

Ten men were burned to death, more than two score critically injured and others temporarily trapped in a fire which swept a huge Chicago sanitary district sewage tunnel in Chicago Monday night, thirty-five feet beneath the surface of the ground. This vivid photograph is a general view of the entrance of the tunnel and shows smoke and flames still pouring from the shaft while relatives and friends of the entombed men stand about, helpless to aid them.

FOREST SERVICE MOBILIZES FOR ANNUAL BATTLE AGAINST FIRES IN NATIONAL PARKS

WASHINGTON, April 16. (AP)—Along the 160,000,000 acre front of national forests, units are being mobilized for another season's warfare against the menace of fire.

That these observers have proved their worth is indicated in figures for 1930 which show that out of 8,338 fires, 4,653 were extinguished before they burned a quarter of an acre, and 2,246 before ten acres had been destroyed.

The fire loss in national forests last year was \$348,890. The beginning of the fire season has been signaled by serious

HOUSE BILL WOULD PLACE TIME LIMIT ON TAX PAYMENTS

AUSTIN, April 16. (AP)—The house today passed a bill by Senator O'Neal of Wichita Falls to permit taxpayers to invoke the statute of limitations on delinquent taxes. The bill will not affect taxes now due, but only those coming due after.

The date of the bill, if effective, would be the date of the tax return. If taxes were not collected within six years, they would be barred by the statute of limitations.

Sponsors of the bill said the present method of letting taxes run often caused difficulty to property owners and persons who have purchased property believing the taxes had been paid. Numerous instances were cited where tax collectors went back 25 and 30 years and enforced collections of delinquent taxes.

Other senate bills passed by the house were:

By Hornsby of Austin to require public cotton classifiers to have a federal cotton classing license.

By Williamson of San Antonio, regulating the salaries of the chief clerks of deputies of all officers in Bexar and Harris counties. The bill received enough votes to go into immediate effect.

By Moore of Greenville, regulating the taking of fish in Rockwell county.

By Beck of DeKalb: Validating the extension of the city limits of Texarkana to include the town of Beverly. The act authorizing the extension was held unconstitutional in a recent decision of the supreme court.

By Holbrook of Galveston: Validating the authority of the city of Galveston to vote bonds and purchase land outside the city limits for park purposes. This bill was also held unconstitutional.

By Williamson: To establish a system of public roads and bridges for Bexar county.

By Puri of Dallas: To permit life insurance companies to own buildings on leased ground.

Three bills approved by the house today.

CHOCTAW INDIAN TURNED BITTERLY AGAINST BROTHER

MAN DOOMED FOR ATTACK
ON YOUNG WOMAN SAYS
BROTHER TO GET WORSE

McAlester, Okla., April 16. (AP)—A few hours before he is scheduled to die in the electric chair, E. S. (Choc) Hembree, 34 year old Choctaw Indian, turned bitterly on his younger brother, with whom he was convicted of the slaying and criminal attack of a local, Okla., school teacher.

"You'll get worse than I got," read a statement left by the doomed man with his mother, A. Y. Hembree, 24. He brother, is sentenced to serve 25 years in prison.

Free on \$25,000 appeal bond, the younger Hembree was in McAlester today with other relatives of the man condemned to death at state's prison shortly after midnight.

The mother said she "maybe" would reveal the entire contents of his statement, "afterwards." She refused to take sides in the rift between the brothers.

"A. Y., had lots of illness," she said. Hembree's father told newspapermen that "A. Y. let Choc take the rap."

"The lawyers kept saying it was best," he added.

"Choc" meantime ate heavily in his cell almost within sight of the death chair. He maintained calm, at times whistling as he paced the floor.

Both in Prison Before
The last year is not the first time he has seen the inside of a prison. He was convicted of murder at Antlers some years ago, only to be freed by a wardman from J. C. Walton, then governor.

A. Y., too, has been in prison before. He served a five year term at the Granite, Okla., reformatory for auto theft in 1923.

Both men were sentenced last July at Duncan, after a jury found them guilty of attacking, robbing and shooting Leota Bos-

(Continued on Page 10.)

Condemned Slayer En Route to Prison For Death Penalty

PAMPA, April 16. (AP)—Moncus Twitty, whose death sentence Governor Sterling yesterday refused to commute to life imprisonment, was en route to a cell in "death row" at Huntsville today in custody of Sheriff Lon Blansett.

Twitty, convicted last June 4 of criminally attacking a three-year-old girl, has been sentenced to die last night, he had not been in jail for "months," testified today in defense of her kindred.

Other defense witnesses were Miss Dorothy Elaine J. W. White, rank Everetts and W. H. Parsons. The state rested its case yesterday.

Connor was shot to death December 29.

MAN BURNED DEATH AND TWO OTHERS IN SERIOUS CONDITION

BATTERY OF OIL TANKS AT
HUMBLE CAMP NEAR KIL-
GORE BURN THURSDAY

KILGORE, April 16. (AP)—One man was burned to death and two others may die of burns, received when a battery of oil tanks at the Humble company camp near here were destroyed early today.

Joe Lamb, 25, is dead, and M. J. Pendleton, 35, and a man named Pettaway, were seriously burned.

Lamb's father, who stood helpless and watched the flames burn his son, was taken to a hospital, prostrated from the experience.

The oil tanks were ignited by backfire from an automobile, which set off a gas pocket.

The lumps were believed to have come here recently from Smackover, Ark. It was not known whether any of the men was married.

Joe Lamb's body was burned beyond recognition. Pendleton and Pettaway were treated at a funeral home here, then were taken to a hospital at Henderson.

Mrs. R. L. Lamb, of Houston, the youth's mother, arrived here at 10:30 a. m. Monday, having been advised of her son's death. He also is survived by two brothers, James E. and John S. Lamb.

Attendants at the hospital reported later in the morning that M. H. Pettaway would live.

Humble Oil company employees said the fire was confined to a gas pocket near a group of three tanks at the Humble camp well. The tanks were not ignited.

Two Die in Refinery Blast
WICHITA FALLS, April 16. (AP)—Clarence Walker and Jim A. Hembree, employees of the Panhandle Refining Company, who were burned in an explosion and fire at the plant here this morning, died in a hospital this afternoon.

The condition of Robert K. (Continued on Page 10.)

EXTRA SESSION OF CONGRESS DEMANDED BY WALSH AND NYE

UNEMPLOYMENT AND AGRICULTURAL
CULTURAL RELIEF ARE
ISSUES

WASHINGTON, April 16. (AP)—Renewed insistence upon an extra session of congress to deal with unemployment and agricultural distress came today from Senators Walsh, democrat, Montana, and Nye, republican, North Dakota. Administration leaders maintained their opposition.

"Congress should be here," Nye said. "To provide means for the federal farm board to function during the coming crop year or we face the gravest emergency in the history of our country."

At congress should be here devoted itself to the unemployment problem, which continues as serious as it was last winter.

Walsh said he believed a special session was urgently needed because of "grave problems confronting our nation which should be met with now."

Republican Leader Watson of the senate said he was opposed to an extra session. Adjournment of congress, he said, brought a "terrible psychological reaction" which would be lost if congress reconvened.

A request similar to that of Walsh and Nye was transmitted to President Hoover yesterday by John Dewey, people's lobby president. Dewey's letter urged a special session to appropriate funds for "millions" of drought-stricken unemployed sufferers "not being cared for adequately by any agency."

Wife and Mother Of Accused Slayers Witness Thursday

KEENEVILLE, April 16. (AP)—B. H. Hunter, wife and mother of four men on trial in strict court here for the murder of John Connor, former police chief of Keeneville, testified today in defense of her kindred.

Other defense witnesses were Miss Dorothy Elaine J. W. White, rank Everetts and W. H. Parsons. The state rested its case yesterday.

Connor was shot to death December 29.

COTTON PLANTING IS UNDER WAY IN NAVARRO COUNTY

DECREASE IN COTTON ACREAGE OF MORE THAN TEN PER CENT PREDICTED

Cotton planting is in full way in all sections of the county this week. With continued fair weather, a large per cent of the cotton will be planted during the next ten days.

Farmers have been busy for the past month finishing corn planting and preparing the land for other crops. Some of the corn planted early had to be replanted for various reasons, principally cold, wet weather.

Taken as a whole the land is in good shape with very little vegetation. Rain will be needed soon, however, to prevent the moisture entirely drying out.

Very little difficulty is expected in getting a stand of cotton as there was a good supply of moisture in the soil. In some sections reductions as high as 25 per cent or more have been made. The reduction in acreage was effected principally through the cooperation of the bankers and through a desire of the farmers to "live at home" as much as possible this year.

Feed crops of various kinds will be planted on the land formerly devoted to cotton. There was considerable increase in acreage planted in corn and oats. Sorghum, maize and other head crops will also be increased. In some sections of the county preparations are being made to feed some cattle on the grains and hay crops. Several in Kerens have purchased grinding and mixing machines for use in preparing the grains for feeding.

Change Announced Printing Instructor State Orphan Home

M. Rinehart, former manager of the Groesbeck Journal, who for the past few months has been employed by a newspaper in Del Rio, has replaced J. H. More as printing instructor of the State Orphan Home here. Mr. More recently returned to his former home in Cleburne.

Mr. Rinehart has been connected with the printing phase of newspaper office work including reporting, desk work and printing for a number of years.

Defense Witnesses Heard in Trial of Man Charged Murder

OMAHA, Neb., April 16.—(AP)—Defense witnesses took the stand today in the trial of Frank Von Ach, OMAHA, charged with first degree murder of a woman, Mrs. Betty Burns, former Dos Moines, Iowa, and Dallas, Texas, society woman. Mrs. Burns was found dead in Von Ach's rooming house, Feb. 26, after living with him for several years. The state charges she died of a beating inflicted by Von Ach.

The state rested its case late yesterday.

Two Young Women In Two Accidents Near San Angelo

SAN ANGELO, April 16.—(AP)—Within two miles of the point where he picked up two young women who had been injured when their automobile overturned, J. Harvey Andrews, car caught fire last night near El Paso, east of here, and was destroyed. Another passerby brought the trio to San Angelo. Miss Wilma Gossett and Miss Mary Edwards still were in a hospital this morning, neither critically hurt.

ACTING CITY MANAGER
MEXIA, April 16.—(Spl.)—Howard T. Mace, city secretary, is acting city manager of Mexia while the city commission awaits recovery from illness of Mayor J. Sandford Smith before holding a meeting to elect a city manager. R. D. Morgan retired as city manager on April 1. No date has been set for selection of his successor.

LAW ENFORCEMENT OF TODAY LITTLE CHANGED FROM DAYS THREE DECADES OR SO AGO

Underworld characters, as termed by many people, those engaged in crime, today are in many instances those who were engaged in law violations more than a quarter of a century ago, mused C. L. Knox, assistant county attorney of Navarro county, today in discussing conditions of the present time as compared with those of the 90s, with a news reporter, and there is little change in the character and problems in law enforcement now as was at that time, although many changes in methods and procedure are now encountered.

"There were many more arrested for crime back in the old days than now," Mr. Knox continued. "Mr. Knox was assistant county attorney under Luther A. Johnson, now congressman, from 1898 to 1902, and was county attorney from 1902 to 1910. From 1910 until 1931, a period of 21 years, the present assistant prosecutor was out of touch with the law enforcement in this county."

"You'd be surprised as would the majority of the people," Mr. Knox said, "that some of those people I dealt with and prosecuted back in the 90s and early in the twentieth century, are now being dealt with, in many instances for the same character of offenses, and in other instances, allied and more modern lines. He referred to numerous individual cases, recalling from memory, and citing instances where the younger generation is following in the footsteps of the parents."

"It is merely a case of suppression" in the law enforcement, he stated, and "keeping it down as low as possible."

Only Slight Change
Twenty-five years ago, the assistant county attorney related, local option law violations and gambling houses were numerous. "Out of the local option law and gambling house violators of that day, we have the footleggers of today," he remarked.

In the old days, there was considerable petty thieving, and today the same bunch are in gangs of petty thieves, small hijackers, and petty burglars.

Years ago, bank robbers were little heard of, those now engaged in that character of crime being the train robbers.

The cattle thief of the yesterday has evolved into the automobile thief of today.

In the 90s, there were 30 or 40 arrests daily, and on the big days, many times the city and county jails were crowded to capacity, and at one time a stockade was constructed behind the city hall to care for the overflow after both city and county jails were filled. There are only about a half dozen arrests daily now.

Less Criminal Practice
Mr. Knox recalled that there were not nearly so many big criminal cases tried in the courts as in the other years. There were numerous murder trials, and several big trials were stored at each term of court. "In those days, there were five big law firms, who devoted most of their time to criminal practice. In addition to that of the smaller firms and individuals," he said, "and now there is little criminal practice."

There has not been a white man killed in Navarro county in several months, since before the present county attorney's personnel took office Jan. 1, 1931, and only one negro murder case developed. After the principal in the "hoodoo" case early in January was given a 99 year sentence in the penitentiary for the slaying of a negroess here and the subsequent conviction of other negroes on old murder charges, shooting among the negroes has decreased to a minimum.

For several years, negro killings were almost of weekly occurrence. The district court here formerly was composed of Navarro, Limestone and Freestone counties, and about three weeks of each term was devoted to the trial of criminal cases in Navarro county, practically the same time as it devoted to that character of trials at the present time with the population of the county doubled.

Twenty-five years ago, local option and gambling house cases were tried in the county court, and now the prohibition cases are dealt with in the district court.

All Works From One Office
Under the old order of things, the district attorney handled the felonies and the county attorney handled the misdemeanors and the grand jury work. All of the work is now handled by the county attorney's department.

"People think law breaking at the present time is worse than in former years, but it is not—they don't seem to realize it," Mr. Knox said, "and I have been interested during the past few months in getting back into the law enforcement machinery, and comparing the present times with those in the past. It is the same persons and same kind of people violating the laws today that were doing so in former years, but it is not—they don't seem to realize it."

Mr. Knox pointed out when he was in the courthouse in former years, a poor farm, consisting of between 400 and 500 acres of land was manned and worked with convict labor—there being between 40 and 50 prisoners there all of the time. The present county farm has approximately 60 acres in it. In those days the city maintained a farm on which convict labor was done for those who were unable to pay. In addition to the city and county farms, there were convict road camps in each precinct working on the public roads and the citizens did the remainder of the road work by being "warned out for five days road service per year" by the road overseers. The work is now being done by the county by hired men on road outfits, principally motorized equipment.

No Profit Now
"There is no way now to make the convicts pay their cost at a profit," he stated, and if they are sent to the county farm the county is unable to keep them at a profit.

Another thing the assistant county attorney pointed out that tends to make the people notice law violations at the present time more than in former years is newspapers and transportation. In the

old days, a person in the extreme eastern portion of the county desiring to go to the extreme western portion went by horse-drawn conveyance, necessitating a day and probably two days to make the trip, and when they were summoned for jury service at Corsicana, they generally remained in Corsicana during the entire week as they were unable to go back and forth. Now, those of the grand jury petit jury service come to Corsicana in the morning and then return home that afternoon.

In the old days, the only papers were those of the weekly variety, and detailed reports of proceedings and occurrences were not chronicled as in the present time when everyone has the daily newspapers giving in detail the happenings, occurrences, etc., within a few short hours after it materializes when formerly it was days and weeks, if ever, before the news became generally distributed.

Conditions Much the Same
"Yes, people are much the same, and much the same people who were violating the laws a quarter of a century ago are violating the laws today," was the way Mr. Knox summed up his opinions and observations of present day conditions.

The assistant state attorney is also of the opinion that the only way in which to deal with those

Son of Former Corsicana Couple Declamation Winner

TEAGUE, April 16.—(Spl.)—For the third time in succession Walter Kerr will represent Freestone county in senior boys' declamation contest at the district meet to be held in Waco on Saturday, April 18. Mr. Kerr won second at the district meet in 1929, and won first in the district last year, 1930, and represented this district at the state meet in Austin. It is believed that Mr. Kerr will have a good chance to cop the district title again this year, and also to make a wonderful record in the state meet.

Miss Clara Stringer, Teague senior girl declaimer, will also be attending the district meet this year, and this makes her second year in succession.

engaged in law violations and crime is by the use of "force" and the "mild" fist, "with the only really effective deterrent to crime is vigorous and rigid prosecution. "It's no use talking and pleading with law violators to quit, they won't do it, unless they are afraid of the punishment likely to be meted out," he declared.

Courthouse News

District Court
The Navarro county grand jury is scheduled to resume its investigations Monday morning after having been in recess for several days.

Introduction of testimony in the case of Lester Beauchamp vs. Jesse R. Beauchamp, trespass to try title, was still in progress in the thirteenth judicial district court Thursday morning. The trial started Monday. This is the third time that the case has been tried in the local court.

The firm of Webb & Cole of Streetman has opened a new and up-to-date undertaking parlor, consisting of the members of J. K. Cole and Henry B. Cole, two prominent business men of Streetman.

Farmers Are Busy In Freestone County As Weather Opens Up

KIRVEN, April 16.—(Spl.)—Farmers have been taking full advantage of the warm spring weather to plant their crops. Many are planting cotton, hedges, peas and peanuts now. Farmers are complaining of poor stands of corn, and some of the corn land will be replanted to other crops.

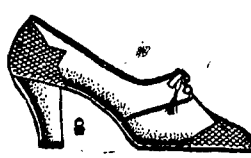

Larger feedstuffs acreage will cut the cotton acreage in this territory. Gardens are looking good.

Indications point to a fine fruit crop, especially plums and berries. Peach trees were slightly damaged by late frost.

SUNDAY SCHOOL PICNIC
GROESBECK, April 16.—(Spl.)—The entire Sunday school of the First Methodist church will go to the city park Friday night for a Sunday school picnic and water coast, the climax of an attendance contest. The losers are entertaining.

Pale and Weak

"I THINK Cardui is a wonderful medicine. I improved greatly after taking it," says Mrs. A. W. English, of R.F.D. 4, Roanoke, Va. "When I was just a girl of 13, my mother gave this medicine to me, and it did me a great deal of good. I was weak and run-down. After I had taken Cardui awhile, I felt much better."

"In 1924, my health was poor. I felt miserable, and hadn't enough strength to do my housework. It took all my willpower to keep up. I was pale and weak."

"I got Cardui again and took it. My improvement was wonderful. I can recommend Cardui to others, for my health was so much better after I had taken a course of the Cardui Home Treatment."

ANOTHER EXAMPLE OF FORD VALUE

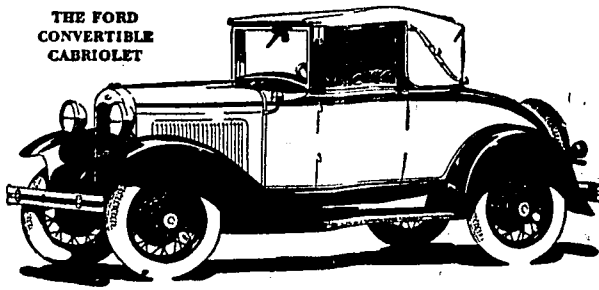

Bright, enduring RUSTLESS STEEL is used for many exposed bright metal parts of the Ford

WHEN YOU BUY a Ford you buy enduring beauty. The body finish is made to last for the life of the car and practically all exposed bright metal parts except the bumpers are made of enduring Rustless Steel.

This Rustless Steel has great tensile strength. It is the same bright metal all the way through. A salt test equivalent to forty years' service under the severest weather conditions failed to have any effect on its brilliance. It never requires polishing. All you do is wipe it with a damp cloth, as you do your windshield.

This is just one of many features that show the substantial worth of the Ford. In speed, comfort, safety, economy and long life—in the richness of its finish and upholstery—it brings you everything you want or need in a motor car at an unusually low price.

Call or phone for demonstration.

LOW FORD PRICES \$430 to \$630

(F. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost. You can purchase a Ford on economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.)

PROGRESS IN DISEASE PREVENTION.

Up to the present time, according to the United States Public Health Service, the most significant advances in public health achievement have been manifested among the lower age groups. It is true, of course, that the great sanitary reforms, such as the filtration of water supplies, have remarkably diminished diseases of certain kinds among all ages and classes of persons, but the actual saving of life has been most pronounced among children, and especially little children and infants. It is for this reason that the expectation of life at birth—that is, the average length of time that all children, born at a given time will live—has increased from about 48 to about 58 years in the past 20 years.

This is very encouraging, because it shows clearly that much of the disease from which the human race has been suffering, and many early deaths, can be avoided if we put our best existing sanitary knowledge into practice. But while it is gratifying to know that we are on the right track in the battle against disease, it is true that there is another side to the picture: A great wastage of health and life still continues, due to the failure to apply existing knowledge.

There are some diseases which may be controlled and eventually eradicated by general measures undertaken by the community in which the individual citizen is seldom called upon to take part. There are a great many other diseases, however, for which as yet no general measures have been devised, and in the avoidance of which the individual is called upon to exert his own initiative. Conspicuous among such diseases are those conditions which are prevented by immunization.

It may be freely granted that the inoculation of individuals in order to render them immune to one disease or another is not an ideal procedure. Health officials wish as much as any one else does that there were some simpler general measures which would make this procedure unnecessary; in fact, for many years they have been attempting control by such means as quarantine, isolation, and disinfection to check the spread of communicable disease. These efforts have met with some measure of success in the case of certain diseases. For example, as has been indicated, it has been possible to reduce typhoid fever to the disappearing point by the sanitary control of water and milk supplies, and yellow fever and bubonic plague may readily be controlled in progressive communities by measures against the mosquito and the rat, respectively. On the other hand, smallpox, diphtheria, scarlet fever, and a number of other common infections have never shown much amenability to control by any means other than by actually immunizing each susceptible individual.

We are fortunate in being able to state that there is really no need for anyone nowadays ever to have either smallpox or diphtheria, and those diseases, as is well known, have been in the past among the most deadly of scourges. Vaccination against smallpox, repeated in a few years, will protect against smallpox. Such great improvements have been made since the introduction of this method that no one

JUST FOLKS

LITTLE SEAMSTRESS
Who wants a seamstress eight years old
Who piles a needle in and out
And makes her stitches neat and stout
And puts on buttons so they will hold.
And makes of silken pinks and browns
For dolls the prettiest evening gowns?
Who wants a seamstress who can take
A bit of printed calico
And cut and fashion it and sew,
And out of it pajamas make
For Teddy bears to wear about
Weekends when they're invited out?
Who wants gay coats for dogs and cats
And woolly creatures large and small?
And dress them in the cutest hats:
She'll fashion everything they need
And all her work is guaranteed.
She threads a needle with dispatch
Her seams are folded in beneath
She cuts the stitch ends with her teeth.
For any seamstress she's a match
That is, by mother I've been told.
For anyone just eight years old!
Copyright, 1931, Edgar A. Guest

PLANES EVERYWHERE.

Everywhere one goes there are airports and wherever there is an airport there is a crowd of interested spectators. Who can still deny that the American people are air-minded? They are flying by the millions, utilizing air transportation facilities and looking forward to the time, probably not so far off, when the Ford of aviation will produce a plane for the masses. The fear of the air is slowly vanishing.

This is not a foolish fear. It is second nature with human nature to fear the new and strange. Railroads, steamships, automobiles, elevators aroused similar fears during the early stages of their development. Strive as he might to keep a safe distance, the groundling has been the stepchild of fortune every time some new means of transportation has been devised. Railroad companies took his lands and laid tracks through his house. Locomotives ran over him or set fire to his fields and forests. Then came the automobile to frighten his horse, hog the road and throw dust in his face. Today, it is the craft of the air that menace his peace and safety.

Every new plane that takes to the air increases the threat to the groundling's chimney, roof and garden. He lives in constant dread of a nosedive through the new slate or tile. The airplane goeth wheresoever it listeth and it generally listeth to go where a tailspin can do its worst. And the threat comes in duplicate for it offers an excuse for another form of insurance and another swooping down of insurance agents. A Long Island dweller chanced upon the only hope for relief. He refused to permit removal of a plane that perched in his favorite tree until settlement had been made for the damages caused his arboreal treasure.

should hesitate to have his children vaccinated during the first year of life. These improvements have been both in the methods of preparing the vaccine and in its administration. The United States Government, through the Public Health Service, now supervises all of the plants in the United States, and passes on foreign establishments in which vaccine is made to make sure that the methods are correct and that the personnel is competent, and tests are made on the completed product. Moreover, a technique of vaccination has been worked out which makes the vaccination a trifling affair so far as discomfort is concerned, and reduces the likelihood of "sore arms" to a minimum. It has also been discovered that the best way to treat the arm after vaccination is to let it alone. Shields and other dressings which have to be strapped on with adhesive plaster are the chief cause of sore arms, because they make the sore moist and hot and do not allow proper circulation of blood and lymph. With the tiny insertions now advocated, and without any dressing whatever, these vaccinations do well.

A WILLING COOPERATOR

THE ENTRANCING SPORT.

Whenever any sport is so entrancing that it calls a man away from his sleep for the greater part of the night, hypnotizes him into making long automobile drives, keeps him going throughout the chill, sunless early morning hours between 1 and 4 o'clock on a mist-covered, wind-blown lake, and then sends him back to town, tired, sleepy, wet, hungry, bedraggled, and yet able to do a day's work despite these sacrifices and exertions, there must be something to that sport, something more than even its most ardent followers give it credit for.

During the season all have met many men who have been led into such apparent excesses by the piscatorial lure. Of course, they appeared tired, but they seemed cheerful, and they talked enthusiastically about going through the whole thing again as soon as the opportunity offered itself. From them one hears all about the expedition, how the fish didn't bite in one pool and did in another, how they accepted one kind of fly and rejected others—and how the biggest one got away.

Anyone who has chanced upon a fisherman with his line caught on a snag or in a tree must have been struck by his close relationship to the golfer who has lost his ball or hit it into a particularly difficult hazard. It may be these sports have something in common after all, and the discovery that the fish "bug" and the golf "bug" are germs of similar type should be of profound interest to science. One phase of these maladies, so common to man, that interests science is their ability to give the human mind a vacation from worries and troubles of life. They are recreations that re-create mental and physical health.

All the "advantages" any young sprout has a right to expect in this life are the right kind of parents.

Nice thing about being too skinny is you can eat all you please without gaining an ounce.

The best cure for sensitive feelings is a little less petting and a little more spanking.

Some people persist in buying wildcat stock as if their bank rolls had nine lives.

It's seldom that a man who shoots straight is annoyed by the wolf at the door.

Prize fighting once was classed as a sport. Now it is a commercial enterprise.

NEW GOLD FIELD.

Gold lacks that miraculous power to renew itself, but the supply never runs out. By some coincidence new deposits are found every time the supply runs short or the output lags behind the growth of world wealth and business. This is fortunate since business suffers when its volume surpasses the volume of gold for monetary purposes.

For a year or two gold standard countries have been anxious over the gold situation, since a shortage has seemed imminent. As if in answer to their prayers, gold strikes began occurring in widely scattered parts of the world—the United States, Canada, Alaska, Australia, Mexico and elsewhere.

The latest gold rush took place in the Mexican state of Sinaloa, and the details read like a page out of the days of '49 or the Yukon. The lure of the yellow dirt is eternal and is no respecter of class, race or generation.

A village grocery clerk and another obscure villager picked up some yellow ore in an arroyo at the foot of El Tambor Mountain at a point where many feet had trod before. They had it assayed and found it to be gold ore worth \$149,000 a ton. After staking their claim they spread the news and 33,000 more claims were quickly staked out in the stampede that followed.

Today Mexican peons are digging feverishly for gold. Some are finding it. Others are finding only bitter disappointment and poverty even greater than that they have known all their life, for they have abandoned their little farms and herds, gambling all on gold and easy wealth.

POACHING

The role of science has often been to shatter illusions. In fact, the exercise of doubt has brought to science some of its greatest achievements. But timid souls are occasionally appalled at the ruthlessness with which scientists rush into inmost sanctums of fancy.

Men of science now tell us Amazons were merely young men with close shaves. Are there not today in college plays even athletes disguised as feminine "stars" of the stage? It is to be wondered, therefore, that a race that knew no razor should be greatly astonished to find warriors smooth of chin and fair of skin, but nevertheless dauntless? What more natural, say our men of science, than that they should be convinced that

THE IMMIGRATION LESSON.

Why is it excluded races are utterly powerless to grasp the question of selective immigration as presented by the immigration laws of the United States? The answer is they can see only one side—their side—of the question.

In all sincerity some of them protest that since their native lands have produced in other times sundry great poets, painters, philosophers or musicians, they, too, must be endowed with an inherited culture which makes them suitable and assimilable material for American citizenship. No such conclusion follows.

A race may, indeed, be tintured with a vast dilution of the highest qualities but this is no proof that its blood stream can be happily mingled with the dominant American blood stream, either in the next generation or in the next century. Selective immigration does not place the insulting brand of inferiority upon the excluded alien. It is no insult to oil to say that it will not mix with water. Three centuries of experience, which, until lately, has been resolutely ignored, has finally taught the American people which blood streams have a natural kinship with their own, and which are as alien by nature as by fact, and must be kept out if the racial integrity and national institutions are to be preserved.

these were fearless female fighters. Apparently the world's supply of razor blades and shaving soap was exhausted about twelve hundred years before the beginning of our era, and the Amazons either joined circuses as bearded ladies or discharged their publicity agents who had spread among Greeks the legend that there were no men among them.

Poets and fantasists have heretofore been willing to leave the sphere of science to scientists. Is it not time to arrange a treaty whereby scientists, on their part, will agree not to invade the field of poetry and myth?

Some such an armistice might well be declared between state and federal governments as to encroaching upon each other's rights, between such politicians as Big Bill Thompson, of Chicago, and the schools, and between all members of society as to minding one's business to the exclusion of the other fellow's.

Another disadvantage about obeying the traffic laws is that it makes one so conspicuous.

SCHOOL ELECTION RETURNS COUNTED BY COMMISSIONERS

Finishing the canvassing of the returns of the school trustee elections and the passage of an order for the transferring of approximately \$1,700 from the interest and sinking fund for bonds voted several years ago in the Currie school district which were not approved by the attorney general's department to the school district's maintenance fund featured the Monday afternoon session of the Navarre county commissioners court.

The Currie school district voted \$1. tax in 1928, 60c to go to the school maintenance, and 40c to the retiring of \$20,000 school building bonds voted. The attorney general's department refused to approve the bond issue and the \$1,700 was collected the year the bonds were voted, and have been kept in the county treasury. A petition containing the property owners names within the district was prepared in 1930 and was presented to the court Monday asking that this fund be transferred to the maintenance fund for the school.

One New Trustee.
J. F. Slater was declared elected in precinct 4 as county trustee over W. H. Thorn, present incumbent. The returns showed that Slater received 174 votes and Thorn 135. Slater resides at Brushy Prairie and Thorn at Navarre Mills.

J. A. Jackson, Powell, and W. B. Payne, Pursesley, were re-elected without serious opposition in commissioners' precincts 2 and 3, respectively. O. L. Albright, Corsicana, and John D. Story, Angus, are the hold-overs of the county school board.

The deficit for the P. and S. Hospital, county institution, was \$1,190.38 for the month of March and an order was passed authorizing County Auditor J. M. Tullos to transfer \$1,190 from the general to the hospital fund.

Claims were allowed except as noted on the claim docket.

The quarterly report of L. J. Martin, county treasurer, was filed and approved.

Election Results.
Election returns canvassed and declared at the afternoon session were:

McCord—J. F. Slater, 8.
Purdum—W. H. Thorn 38, J. F. Slater, 24.

New Raleigh—J. F. Slater, 18.
Zion's Rest—(21)—Walter Castles Sr. and John Martin.
Clyver Creek—(24)—Ernest Williams, J. L. Watkins and J. A. Harris. For county trustee—J. F. Slater 1, W. H. Thorn, 5.

Finch—(35)—G. W. Travis and Tom Weaver.
Tupelo—(4)—John Bowden and Tebe Braddock.

Mildred—(18)—A. N. Boyd, L. B. Bonner, J. N. Thomas, H. O. Jenson, D. Ruth, T. M. Kept and M. H. Wright.

Currie—W. B. Payne 37, W. B. Ivie 1.

Bradley—J. A. Jackson, 10.
Watson—J. A. Jackson, 16; A. J. Deskin, 1.

Headquarters—W. B. Payne, 30.
Rice—J. A. Jackson, 31.
Pecan—Will Boyd, J. F. Slater, for county trustee, 16.

Buffalo—Fred Slate and G. W.

Ohio Man Runs Amuck; Four Are Dead As Result

WOOSTER, O., April 14.—(P)—Ellis McGregor, 65, ran amuck at his home today, poured gasoline on his wife and stepson, set them afire, fatally stabbed a boarder with a butcher knife and then committed suicide.

The slain boarder was Clayton McAfee, 50.

Mrs. McGregor, 40, and her son Riddle, 25, were taken to a hospital where they died a few hours later.

McGregor, a stone mason, was found dead in a shed behind his house. He had hanged himself with a long chain.

Officers said McGregor had become insanely jealous and accused his wife of infidelity.

Before she became unconscious, Mrs. McGregor said she and her son were seated on a davenport in their home when her husband suddenly poured gasoline on them from a kettle and then set them afire before they could escape.

Coroner E. L. Crum of Medina, gave a verdict that McAfee and Riddle were murdered and that McGregor committed suicide.

Eventually—Why not, buy now?

SLAYER OF TWO RETURNED TO JAIL IN ATHENS TUESDAY

ATHENS, April 14.—(P)—Charles Douglass, 40, charged with the fatal shooting Sunday of his son-in-law, Davis January 26, and his sister-in-law, Miss Texana Hall, 46, was returned from Tyler today and lodged in the Athens jail. Douglass refused to make a statement and had not yet employed counsel.

County Attorney Hobson Green said he would oppose bond for Douglass, claiming he did not believe it a bailable case.

Sheriff Joel Baker, who was one of the first persons to reach the scene of the shooting, revealed this morning, that a .32 calibre pistol believed to have been the property of January was found near January's body.

Douglass and his wife were separated and she was living at the home of her father, H. M. Hall, five miles east of Athens, near which the shooting occurred. Douglass had a quarrel of long standing had existed between Douglass and January.

Freestone Negro County Agent Plans Budding of Pecans

TEAGUE, April 14.—(Spl.)—P. J. Rowe, negro county agent, is planning a pecan budding program of extensive proportions in the near future. A similar program was carried out last year.

Patch budding is found to be the most practical type to be used, as it requires less skill than other forms. Native pecan trees found on a large number of farms will be budded this season as the cost is very small. To buy the tree would cost from 75 cents to \$1.00, while budding will cost six to nine cents for smaller trees, where only two or three buds are used.

Hatchery! Hatchery!

Better set your eggs next week or so, hatching for \$3.00 per tray this year.

Baby Chickens

We have nice lot Barred Rocks and Rhode Island Reds for ten cents each. Have lot large breed mixed chickens for eight cents each.

Next year will certainly be good year for eggs and poultry so be sure to set you some eggs or buy you some chickens some place.

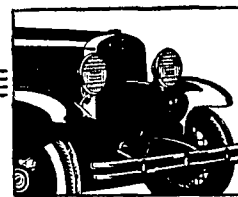

We set our machines each Monday.

A. B. Walker & Son

Presenting the NEW CHEVROLET SIX in twelve attractive models

CONVERTIBLE CABRIOLET A comfortable coupe or a racy roadster. Wide rumble seat. Radiator grille. \$615	CONVERTIBLE LANDAU PHAETON A new, fully convertible touring car. Windshield folds forward. \$650

All prices f. o. b. Flint, Michigan. Special equipment extra

Nowhere else in the low-price field is there such a wide selection of fine coachcraft as in the Chevrolet line—and Chevrolet alone in its class provides the many recognized advantages of Body by Fisher. This means not only attractive styling, handsome interiors and fine, modern appointments—but also the safest, most durable body construction known—wood-and-steel scientifically combined.

And as for performance—remember that Chevrolet gives you a smooth, easy-running six-cylinder motor that develops fifty horsepower, yet operates with less expense for gas, oil, tires and upkeep than any other car you can buy!

When you get ready to buy a low-priced car, inspect the line of new Chevrolet. Sizes now on display at your dealer's.

METHODISTS HOLD THREE MEETINGS IN ONE LAST NIGHT

PRAYER MEETING, CHURCH CONFERENCE, AND SECOND QUARTERLY CONFERENCE

Three meetings in one were held at the First Methodist church Wednesday night regular prayer services, a church conference and the second quarterly conference, all presided over by Dr. Caspar S. Wright, presiding elder.

For the prayer services, Dr. Wright took his text from the 4th chapter, 1st verse, Thessalonians, "And that ye study to be quiet, and to do your own business, and to work with your own hands." Dr. Wright suggested that this scripture be put into practice.

F. J. Walton presented a resolution on the death of the late J. N. Royal, Edgar Metcalf was elected secretary of the quarterly conference, delegates to the district conference to be held in Dawson May 14th and 15th were elected and the following business was taken care of, report on the state of the church by Dr. J. W. Barger, Sunday school by Boyce Martin, Woman's Missionary society Mrs. O. E. Bybee president, Epworth League, Rev. A. C. Carraway, finances, W. E. Slaughter, treasurer, lay activities, Lawrence Treadwell, and other items. Mrs. Bybee told of the Central Texas conference meeting of the Woman's Missionary Society next week.

Pastor's Report.

To the P. E. and Members of the Second Quarterly Conference: Brethren:—While the Sundays of the year have been excessively rainy our church services have been rather well attended. The evening service is not well attended but now and then shows signs of improvement.

We have just gone through our Lenten services—the attendance upon the week of evening worship was more than we anticipated. Many of our stewards and people took an active part in the work of bringing people into the kingdom of God and as a result we have received a total of 78 into the church during the Lenten season. Several were not able to be in attendance because of sickness but we have the letters. Some of the names we will not give tonight as we want to receive them publicly if possible. Our people have been rather generous in their expressions of appreciation of the good accomplished during this season.

During the quarter we received by certificate Mr. and Mrs. H. F. Miller, Mrs. Ethel Gode, Mr. and Mrs. Harvey J. Thornton, Mr. B. C. Moon, Mrs. W. J. W. Foster, Mr. and Mrs. H. E. Joiner, Margaret and Eugene Joiner, Mrs. Caspar S. Wright, Mr. and Mrs. T. A. Evans, Robt. Earl Evans, Mrs. F. L. Sellers, Mr. L. G. Harvey Mr. and Mrs. E. L. Proper and Miss Pauline Proper, Mr. Philip Grimmett, Mr. Byrnes, Mr. and Mrs. R. L. Edgar, J. W. Bunch, Mr. and Mrs. O. P. Douglas, Herbert W. Hearn, Miss Elaine Brooks, Mrs. Vesta Harris, Cecil M. Ashworth, E. W. Edell, Mr. and Mrs. Chester Minyard, Joe Coggins and Mrs. Coggins, Joe Jr. and Ruth Coggins, Mrs. O. A. Vaughn, Mr. and Mrs. L. N. Jeanes, Mary Ruth Smith, Joe Hodge, Alace Cade, Dorris Mae Puryear, Mary Frances Hester, Margaret Boyd, Marilyn Jones, Alouise Foster, Jack Stokes, Jack Flynn, Elvin Kennedy, Mr. and Mrs. Charles Holloway, Georgia Ruth Pollock and Maurice Pollock, E. G. Burchfield.

Dismissed by letter—Mrs. Walter Griffith.

By death—J. L. McPherson and two of Mr. stewards, John Newell Royal and C. R. Steely.

Respectfully submitted:

J. W. BERGIN.

Deaths of Mr. J. N. Royal.

Whereas, our friend, a brother, Mr. J. N. Royal has lived in Corsicana for many years and we have known him as a citizen, husband, man, neighbor, friend, Christian and patriot, and

Whereas, in all these relations of life we found him consistently exemplifying the highest ideals, and

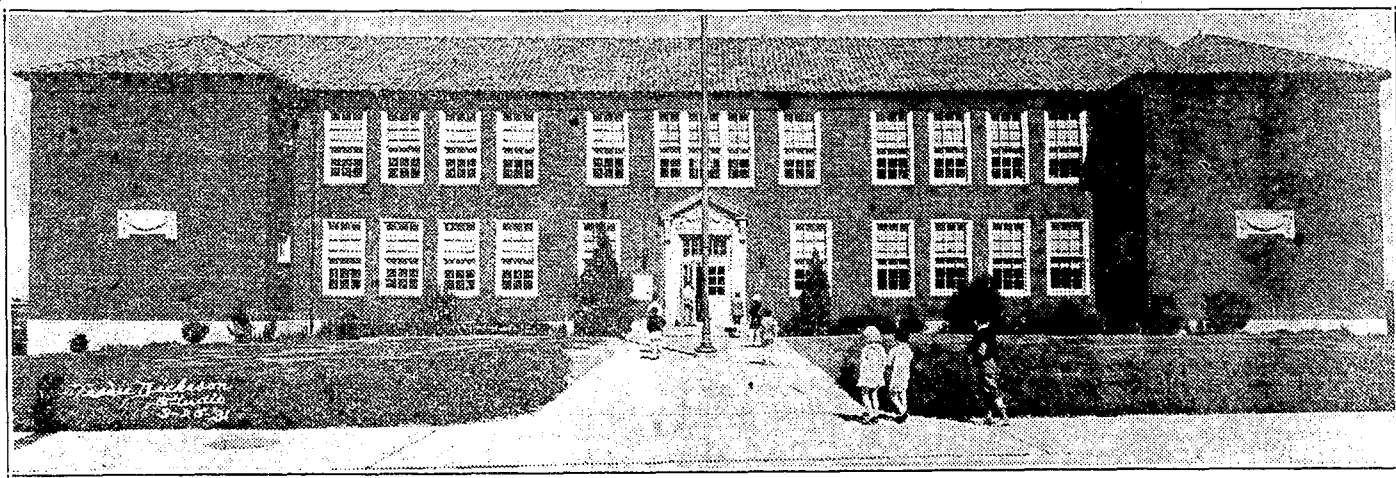

Whereas: In the death of Mr. J. N. Royal, Corsicana has sustained an almost irreparable loss, commercially, socially, civically, politically and religiously;

Therefore, Be It Resolved: That we, the members of the board of stewards of the First Methodist church and also the members of the Quarterly Conference express the high regard in which we held him as a member and officer in our church, and that while he was the personification of loyalty, he was in no way sectarian and yet so fine a Methodist that it is impossible to think of Methodism in Corsicana without associating there-with the name J. N. Royal, nor can one think of Sunday school, church service, mid-week service, stewards meeting or Quarterly Conference without visualizing the kindly face of our good friend.

And in the evangelistic work of the church, recognizing his influential influence in winning men for the kingdom of God or in bearing the financial burden or privilege of the church the generous part he bore.

That we miss him from our

Robert E. Lee School and Efficient Faculty

Above is a picture of the Robert E. Lee grade school, located on the block bounded by Thirty-first and Thirty-second streets and Third and Fourth avenues. This building is one of the handsomest and modern units of the new Corsicana school system and with attractive location and grounds, always scrupulously wellkept, presents a most attractive appearance.

At the right, below, is a photo of the faculty of the Robert E. Lee school, which is classed as one of the best in the city, and takes a deep interest in the school and its development at all times. This faculty has long been 100 per cent in membership in the Parent-Teacher Association and in this way they have aided greatly in securing many attractive features for this school not enjoyed by many schools. In the picture, reading from left to right, top row are: Mrs. Edgar Smith, high second grade; Miss Louise Sims, high fourth; Miss Rachael Welch, low first; Miss Nettie Bonner, principal; Miss Margaret Rodenick, high third; Bottom row, left to right: Miss Anna Lou Watson, high fifth; Miss Ethel Innon, high first; Miss Elizabeth Blackshear, low fifth, and low sixth; Miss Kathryn Orr, high first and low second; Miss Lois McCartney, low third and low fourth.

work and councils and cherish his memory as sacred.

Signed:
T. J. WALTON, Chairman.
DR. C. L. SMITH,
J. W. BERGIN,
Committee.
Corsicana, April 16, 1931.

The following delegates will represent the church at the District Conference to be held in Dawson May 14-15, by virtue of their being ex-officio officers, the following are delegates:

Rev. J. W. Bergin, pastor.
Rev. A. C. Carraway, director of religious education.
Rev. H. P. Shrader, superintendent.
Rev. G. W. Kincheloe, superintendent.

Charlton Gunter, local preacher.
Charge Lay Leader, L. Treadwell.
District Stewards, T. H. Benton.
Recording steward, H. E. Metcalf.

District secretary Woman's Society, Mrs. J. S. Callicott.
District Trustees, F. P. McElwath, S. J. Jackson.
District director of the Golden Cross, Mrs. C. S. Wright.

Elected delegates: A. N. Justiss, Boyce Martin, C. T. Banister, T. J. Walton, Mrs. J. W. David, B. A. Jones, E. E. Babers, Mrs. O. E. Bybee, A. L. Thompson, Mrs. J. W. Bergin, W. M. Huff, K. L. McKown, F. E. McPherson, Mrs. Carrie Beasley, Mrs. Mona Edens, H. W. Barton, R. B. Mitchell. The pastor was given the privilege to select alternates for those who could not attend.

Laredo Schoolboy Being Tried Charge Of Slaying Youth

LAREDO, April 16.—(AP)—Reading of District Judge J. F. Mulally's charge to the jury in the trial of Harlan E. Carter, 17, Laredo schoolboy, on charges of murder for the shotgun killing of Ramon Casiano, 16, was postponed until this afternoon.

Defense attorneys, when the trial reopened this morning, asked for additional time in which to prepare objections to the charge. Arguments were expected to begin as soon as the charge was read and the case was likely to reach the jury this evening.

Carter testified he fired on the Mexican youth when the latter advanced upon him with a knife during an argument last March 3.

HOUSE BILL WOULD PLACE TIME LIMIT ON TAX PAYMENTS

(Continued from page 1.)

BILL Goes to Conference.—The congressional redistricting question was given to a conference committee today when the house refused to concur in senate amendments to a bill by Representative Metcalfe of San Angelo. The senate adopted a bill by Senator Greer of Kemp as a substitute for Metcalfe's bill. The Greer bill was amended materially before being substituted.

Many legislators expressed the belief that hope of passing a congressional redistricting bill at this session of the legislature was rapidly fading.

HEAVY HAND USED SUPPRESS RIOTS IN SPANISH PROVINCES

(Continued From Page 1.)

heretofore civil guards always represented the forces which were aimed at suppressing the republican movement. They are crack nation-wide military police, these troops were used by the government and preserve order whatever the government may be.

Theoretically they will now fight for the republic and against the monarchy. The republicans, nevertheless, have created their own volunteer civil republican guards which are not yet in uniform and are distinguishable only by red arm bands.

Emblems of royalty of all kinds were everywhere either disappearing or being covered with red or republican colors. A big problem still remained, however, to get rid of all monarchical stamps, coins and currency.

The royal palace here has been formally attached by the new government and declared national property of the republic. It is closed and no one is allowed to enter while republican officials are taking an inventory. A similar course has been proposed for other royal palaces.

The people of Spain are continuing to assume that King Alfonso formally abdicated. Nothing to the contrary has been indicated in any newspaper.

By CLARENCE DUBOSE
Associated Press Correspondent.
(Copyright, 1931, by The Associated Press.)

MADRID, April 16.—(AP)—The government, attacking the tremendous problem of changing Spain almost overnight from autocracy and dictatorship to a republic, today used a heavy hand to curb threats of communist disturbance and separatism.

Martial law was proclaimed in Seville after communists, during there, a communist mob provoked the fire of a garrison sentinel and two persons were killed and wounded in the ensuing clash. Four police were wounded. General Cavallenas, the newly appointed captain general of Andalusia, was ordered to Seville immediately to take charge of the situation. Seville was the second Spanish city to go under martial law since proclamation of a republic and flight of the royal family, who, it appeared today, would be reunited in Paris preparatory to taking up residence in England. Barcelona, the first, also was in the hands of the military today after a day of rioting with some casualties.

There were other scattered disorders, with communists in some sections using the red flag of revolution as a symbol of their own cause, but the general atmosphere was one of celebration rather than violence. A government order asked all Spaniards to work today after their holiday of yesterday, pleading that the junta had vital questions to consider and should not be disturbed by problems of public order.

Suppress Separatist Moves.
The council of ministers was understood today to have decided that the integrity of Spain must be maintained until a constituent cortes or constitutional convention can work out its future status and that separatist movement such as that at Barcelona, where a certain republic has been proclaimed, must be suppressed.

President Alcala has asked Com. Francisco Macia, president of the Catalan republic, to come here for a conference. The Madrid junta's attitude meanwhile being that it cannot consent to any separatist movement.

The government's program is to call parliamentary elections at some date not yet decided, allow the parliament to write the permanent constitution and then either by direct vote of the people or by the action of parliament to name a constitutional cabinet to replace the present provisional government.

Among the problems facing the ministry is that of the peseta, which lowered in value steadily through the long period of revolutionary turmoil and dictatorship. Indalecio Prieto, returned exile who has become minister of finance, said today the government would attempt first to restore normal conditions, trusting the peseta to reach a better level as a consequence.

NEW YORK, April 16.—(AP)—The establishment of a Republican government in Spain holds no benefits for the people of that country, in the opinion of Leon Trotsky, communist leader.

His views are set forth in a pamphlet, "The Revolution in Spain," written months ago and published recently by the Communist League of America (opposition) in New York.

"Even if we should assume for the moment that the revolutionary movement is a success, it leads to victory, then the fruitfulness of this victory would in the final analysis be equal to defeat," he wrote. "The Spanish republicans stand completely on the basis of the present property relations."

CORSICANA RETAIL BUSINESS FOR YEAR AMOUNTED TO OVER \$10,500,000 ACCORDING CENSUS

(Editor's Note.—The following report of the Bureau of Census of the United States on the amount of retail business done in Corsicana during the past year does not include any of the wholesale business of the city and is confined to retail trade reports strictly. The report is comprehensive and gives Corsicana a high standing as a retail trade center. The report below is a preliminary report.)

WASHINGTON, D. C., April 16.—Retail business in Corsicana in excess of \$10,500,000 is shown by the Bureau of the Census in the release of the returns from the 1930 Distribution Census now being compiled. The 1930 population of Corsicana is 15,202.

The 1930 census reports 340 retail stores with a total annual business of \$10,607,962, a yearly payroll of \$1,155,615, and the full-time employment of 972 men and women. The reported number of employees does not include those working part time, although the pay roll of part-time employees is included in salaries and wages. Merchandise in stock for sale at the end of 1929 shows a cost value of \$1,989,568.

The total of 340 stores includes 269 single-store independents, 24 units of 2-store multiples, and 7 units of 3-store multiples. There are also 18 units of local chains, 8 units of sectional chains, and 11 units of national chains. Sales of these three types of chain organizations aggregate \$2,321,114, or 22 per cent of the total retail business, while sales of the single-store independents amount to \$8,286,848, or 78 per cent. These figures are based upon reports received in 1930 covering the year 1929.

Autos In Lead.
The automotive group takes the lead in this report, with the food group second, and the general merchandise group third in order of sales.

Food stores total 99 and report sales of \$2,279,511 or 21 per cent of the total retail business. Of this number, 31 are grocery stores with sales of \$424,189, and 4 are meat markets with sales of \$49,357, while 48 are combination stores (groceries and meats) with sales of \$1,805,965. Many bakeries which manufacture their own products are included in the Census of Manufacturers, and do not appear in this report.

The automotive group, with 65 establishments, does a business of \$2,688,752, or 25 per cent of the total retail business. Sales in 9 motor vehicle establishments amount to \$1,587,975, and sales in 56 accessory, tire and battery stores to \$1,144,778. A total of 30 filling stations is reported with aggregate sales of \$325,460 in gas, oil, tires, and other accessories. The merchandise is also sold in 14 garages whose total business of \$260,011 includes receipts from repairs and storage as well as from sales.

SUMMARY OF THE PRINCIPAL RETAIL GROUPS IN CORSICANA

Kind of Business—	Num. of stores	Emps. (full time)	Net Sales (1929)*	Salaries and wages (total)
Automotive group	65	221	\$2,688,752	\$280,250
Food group	99	120	\$2,279,511	\$118,042
General merchandise group	24	238	\$2,001,943	\$230,258

Other secondhand stores	3	—	—	—
Total, all stores	340	972	\$10,607,962	\$1,155,615

*Attention is called to certain essential qualifications. No service businesses, such as laundries and barber shops are included. The total number of employees does not include those working part time. The total pay roll includes the salaries of both full-time and part-time employees. Later reports will show the number of part-time employees and their wages. They will show the number of proprietors who are wholly or primarily engaged in the operation of their store but who are not classified as employees.

The abridged figures above do not provide the basis for correctly computing average wages, average sales per employee, nor rate of stock turn.

Gar Wood Comes Close to Equalling Kaye Don Record

MIAMI BEACH, Fla., April 16.—(AP)—In two measured runs over the Indian Creek mile course here today, Gar Wood came within .43 seconds of equalling Kaye Don's motorboat speed record of 103.49 miles per hour. Wood's average for his two fastest of five runs was 103.069 miles per hour.

Wood made his fastest time on the fifth run when his Miss America IX was clocked at 103.249. Coupled with his fourth run of 102.850 his average two-way speed was 103.069.

Elizabeth Visits Victoria.
BRUSSELS, April 16.—(AP)—Queen Elizabeth of Belgium left this morning for Paris to be with Queen Victoria of Spain, who arrived here from the French capital today from Madrid.

Spanish Monarchs Surprised By Vote
PARIS, April 16.—(AP)—The revelation of unpopularity of her husband and herself after the Spanish election Sunday came as a shock to the blue, white, and red monarchs. Queen Victoria, who arrived here from the French capital today from Madrid, was surprised by the vote.

May Remain in France.
PARIS, April 16.—(AP)—King Alfonso XIII may spend his exile in France and not in England. Just before he took the train at Marseilles today to come to Paris, he was told by the duke of Alba, who is following the king, that he would remain in Paris to await the result of the June elections in Spain.

The duke said there was no present prospect of the king's visiting England.

FUNERAL SERVICES FOR C. R. STEELY ARE HELD THURSDAY

NATIVE CORSICANAN, PROMINENT IN CIVIC LIFE, PASSED AWAY WEDNESDAY

Funeral services for C. R. Steely, 48, native of Corsicana, and long time business man here, who died suddenly at his home, 418 West Park avenue, early Wednesday morning, with a heart attack, were held Thursday afternoon at 3 o'clock from the First Methodist church, of which he was a member and one of the stewards, with interment in Oakwood cemetery. He had been the proprietor of the Steely Plumbing company for many years.

The services at the grave were conducted by the Corsican Knights of Pythias lodge. Rev. J. W. Bergin, pastor, conducted the services at the church.

Surviving are his wife, seven sons, C. R. Steely, Jr., Willie Steely, Earnest Steely, Orus Steely, Henry Thomas Steely, Beauford Steely and Walter Bingham Steely, three daughters, Margaret Steely, Mary Francis Steely and Edna Earl Steely, all of Corsicana; mother, Mrs. H. C. Steely, Corsicana; three brothers, J. H. Steely, Stamford, Tex.; L. D. Steely, Corsicana; and one sister, Mrs. G. J. Powell, Beaumont.

Funeral bearers were A. R. Lewis, Vivian Howland, John T. Foster, Will Walton, H. G. Brown, Cecil Foster, Estlin Cunningham and Beauford Jester.

The funeral was directed by the Corley-McMahon Funeral Home.

QUEEN VICTORIA ARRIVES IN PARIS IN TEARFUL STATE

(Continued From Page 1.)
by train from Hendaye to Paris, but it was not until she reached the king who arrived at Marseilles aboard the cruiser Principe Alfonso.

Elizabeth Visits Victoria.
BRUSSELS, April 16.—(AP)—Queen Elizabeth of Belgium left this morning for Paris to be with Queen Victoria of Spain, who arrived here from the French capital today from Madrid.

Spanish Monarchs Surprised By Vote
PARIS, April 16.—(AP)—The revelation of unpopularity of her husband and herself after the Spanish election Sunday came as a shock to the blue, white, and red monarchs.

Queen Victoria, who arrived here from the French capital today from Madrid, was surprised by the vote. "It was absolutely unexpected," she said. "There was something like a red rush, a wave of communists which swept all before us. Those people were completely out of control. If we had remained in Madrid I don't know what would have happened to us—our lives, even. The king would not call upon the army nor upon the 10,000 civil guards who were faithful from the first to the last day."

AGED Isabella Left Behind.
MADRID, April 16.—(AP)—When King Alfonso XIII left Spain yesterday, the Infanta Isabella, 10-year-old princess of the blood who once before saved a Spanish throne fall, was left in her private palace to learn of the latest Royal debacle through her servants.

"The Infanta, aunt of King Alfonso, learned of the Royal family's hasty departure only last night."

When she was told she resolutely set about preparing for her own departure. The last time she left Spain was when her mother, Queen Isabella, was deposed in the '30's.

Alfonso, it was said, refused to bid farewell because she was ill and because of the suffering the news would bring her. That the Republicans would not harm the sick princess seemed to have been confidently believed by the Royal suite.

CHOCTAW INDIAN TURNED BITTERLY AGAINST BROTHER

(Continued From Page 1.)
ley, Gainesville young woman, while the latter was driving from Walters, Okla., to Loco the night of March 9, with a companion, Ched Thurman, Norman, Okla. Miss Bosley was in a critical condition several months after the attack and shooting. Thurman also was shot.

In Medford today Hembree's mother and wife lifted their voices against Governor W. H. Murray, who had refused to interfere with execution.

Murray Scored.
"If he's going through with it, I dare him to come down and see my boy killed," said the mother, referring to the governor.

"Gov. Murray hasn't the nerve to come down and go through this with us," the wife said.

Warden Sam Brown, newly appointed, is scheduled to give fatal orders for the execution.

Heads Fleet

Admiral F. H. Schofield (above), commander of the battle force, has been designated to succeed Admiral J. V. Chase as commander-in-chief of the fleet when the latter's year in that post is completed in September. Admiral Chase will be assigned to a vacancy in the Navy General Board with the permanent rank of Rear-Admiral.

DEPOSED MONARCH OF SPAIN LANDS AT MARSEILLES PORT

(Continued From Page 1.)
narrow avenue through the crowd so the king could reach his coach. He smiled in response to loud cheering and seemed about to make a speech when he was told the train started away.

MARSEILLES, France, April 16.—(AP)—Alfonso XIII, deposed Spanish ruler, who arrived here after a storm today from Spain, left at noon for Paris where he will join his wife, Victoria, and five of their six children.

Nervous and somewhat irritable, he landed here with his cousin, the Infante Alfonso, and the Duke of Miranda, chief of the royal household, from aboard the cruiser Principe Alfonso on which they left Cartagena before daybreak Tuesday.

He wore the same brown overcoat and soft grey felt hat he had on when he left Cartagena. His face was lined with fatigue and strain and for the crowd of newspapermen which met him at the quay his only words were, "Laissez-Moi—leave me alone."

The Duke of Miranda, speaking for him, declared Alfonso had not abdicated the Spanish throne. "His majesty has retained all of his rights," he declared. "He was merely abandoned power in order to avoid trouble or even civil war."

Waits on Elections.
"King Alfonso awaits the forthcoming elections in June to settle the fate of the country. He will remain in Paris until the people have decided the form of government they wish and then will abide by their decision."

"The king is going to Paris and he will reside there with his family. There will be no decision as to further residence in London, England, or elsewhere until later."

The Duke of Miranda said the cruiser Principe Alfonso had been brought to Marseilles here by order of the provincial government but that attitude of the officers and the crew had been very correct.

Although unheralded Alfonso's arrival here was not a surprise, since it had been presumed he would come to Marseilles when the ship carrying him to exile failed to pass through the straits of Gibraltar.

May Remain in France.
PARIS, April 16.—(AP)—King Alfonso XIII may spend his exile in France and not in England. Just before he took the train at Marseilles today to come to Paris, he was told by the duke of Alba, who is following the king, that he would remain in Paris to await the result of the June elections in Spain.

The duke said there was no present prospect of the king's visiting England.

The impression prevailed at Marseilles that the king would take refuge in England only when he believed his exile to be definitive.

Parisians, who always give a generous welcome to exiles, whether they be republicans or kings, are following the king with sympathetic interest. Today they were eagerly asking news of the deposed monarch who reached Paris in a condition of protestation.

They were speculating as to why the king did not accompany his queen and the children to Paris instead of embarking on a cruiser at Cartagena.

The belief prevailed that the king had changed his mind while at sea and decided to come to Paris instead of sailing to England.

Action Took Courage.
MARSEILLES, France, April 16.—(AP)—Believe me it takes more courage to act as I have than to charge at the head of a squadron," King Alfonso told the Spanish news agency correspondent today before entraining for Paris.

The king reiterated what the Duke of Miranda said earlier, declaring his exile only as provisional and was decided on to avoid bloodshed. His final decision would be made after the June elections, he said.

FIRST MEETING OF RECENTLY CREATED BODY HELD TODAY

(Continued from page 1.)

quire the presence of nine of the twelve members of the committee to constitute a quorum.

The meeting also had its tiff. Representative Lassiter of Henderson proposed to invite Cicero I. Murray of Oklahoma to the meeting, whereupon Senator Pollard of Tyler protested. Lassiter withdrew his motion. Pollard said he was opposed to inviting any individual beyond the membership of the committee.

Members of the committee advanced the opinion Governor Murray of Oklahoma would in all likelihood send Cicero Murray to the conference here May 4.

Governor Sterling told the members he had gathered data from various sources concerning oil, among them being a report from the Washington oil conference. He said the data would be mimeographed for use of the members.

The Texas oil, gas and natural resources committee is composed of Governor Sterling, James V. Allred, attorney general; Senator Pollard of Tyler; Woodward of Coleman, Woodul of Houston and Parrish of Lubbock and Representative Howay of Albany.

Expected Decrease In Demand.
ST. LOUIS, April 16.—(AP)—Anticipating a decrease in the demand for petroleum products during the next six months, the Oil States' Advisory committee has recommended to the governors of nine oil producing states that there be no increase in crude oil production.

The recommendations of the committee followed presentation to the refining division of the American Petroleum Institute of Supply and Demand forecasts based on separate surveys by the federal oil conservation board's committee on economics and the industry's committee on refinery statistics and economics.

BOND PROPONENTS FAIL TO SECURE PASSAGE OF BILL

(Continued from page 1.)
Howley of Albany, speeches on the bond resolution yesterday.

Only one amendment was offered to the resolution. It was by Representative Anderson of San Antonio and sought to include school district bonds in the state's bond retirement program.

The amendment was defeated, 132 to 4. The Great congressional redistricting bill was amended a number of times before being adopted. As finally passed the bill proposed to give East Texas, the Panhandle and South Plains and the San Antonio area new districts.

The Greer bill, as did the Metcalfe plan, would place both Congressmen Riggs and Mansfield in the same congressional district, the 13th.

Problem of Poverty Was Old In Time of the Savior

Present Acute Question of Relation of Great Wealth
To Human Told In the Light of a Famous
Story Told by Jesus --- The Two-
World Solution.

BY W. T. ELLIS.

Full-orbed the circle swings—has always been swinging. Our day's most difficult problem was quite as baffling in the time of Jesus. It was old and acute when the pyramids were built. The cuneiform tablets tell about it. A million men have groaned under it. Still it abides, the most difficult, distressful and dangerous issue of this year 1931—the question of riches and poverty.

Maddened mobs have tried to smash the issues, in suburbs of bloody fury. At present, one of the largest nations on earth is engaged in a drastic effort to level down the rich and the poor. In the United States, where it is said that four percent of the people hold ninety percent of the wealth, reformers and legislators make the subject their battle-cry.

Was anything ever more baffling? All sorts of compliments enter in. The rich are not necessarily the deserving, as an hour spent with any group of wealthy men makes clear. There is war, for the hitting of the epigram, "You may know what the Lord Almighty thinks of money by the kind of people he gives it to."

Most of the noblest and most useful souls that have been poor. Nor do the rich ordinarily use their wealth as stewards of the common good. Self indulgence that is shameful, and often wicked, is rather the rule.

On the other hand, the poor are not necessarily virtuous. Gross wickedness abounds at both ends of the economic scale. Russia has not been made a paradise by taking money from the rich and destroying their privileges.

The Story itself.

Jesus held no brief for things as they are. He is the great setter of the old social order of selfishness. Frequently he condemned, in strongest language, the unsocial rich of His day. Probably the economic tribute was the greatest single cause of His crucifixion. He interfered with business, and business cunningly incited to do Him to death. The Pharisees, "who were lovers of money," were the inveterate foes of Jesus.

When He came to deal with the rich and poverty situation, Jesus compressed it into a picture, one of the most familiar bits of literature. Let me quote the Parable of Dives and Lazarus as translated in the Weymouth version:

"There was once a rich man who habitually dressed in purple and fine linen, and enjoyed the splendid banquet every day, while at his outer door there lay a beggar, Lazarus by name, covered with sores and longing to make a fire of the scraps that fell from the floor from the rich man's table. Nay, the dogs, too, used to come and lick his sores."

"But in the course of time the beggar died; and he was carried by the angels into Abraham's arms. The rich man also died, and had a funeral. And in Hades, being in torment, he looked and saw Abraham in the far distance, and Lazarus resting in his arms. So he cried aloud, and said, 'Father Abraham, take pity on me and send Lazarus to dip the tip of his finger in water and cool my tongue, for I am in agony in this flame.'"

"Remember, my child," said Abraham, "that you had all your good things during your lifetime; and that Lazarus in like manner had had things in his. Now he is receiving consolation and you are in agony. And, besides all this, a vast chasm is immovably fixed between us and you, put there in order that those who desire to cross from this side to you may not be able, nor any be able to cross over from your side to us."

"I entreat you then, father," said he, "to send him to my father's house. For I have five brothers. Let him earnestly warn them, lest they also come to this place of torment."

"They have Moses and the Prophets," replied Abraham, "let them hear them."

"No, father Abraham," he replied, "But if some one goes to them from the dead, they will repent."

"If they are deaf to Moses and the Prophets," replied Abraham, "they would not be led to believe even if some one should rise from the dead."

A Two-World Solution.

Thus the Great Teacher had to summon the new world of heaven to redress the wrongs of the old world of earth. He pictured the hereafter as the place of the Square Deal. To Him, the law of compensation ran through the eternal aeons. Things may be all wrong here, but they will be all right hereafter. Our modern materialists, who want to settle all problems here and now, miss this clear teaching of Scripture. You cannot subtract heaven, and still find the sum of happiness.

Not that the present inequalities of our social system are to be condoned. The words of Christ are a warning to the foolish rich. Such tragedies and failures of

civilization as the present depression make clear that there must be a fairer distribution of this world's goods somehow. This year's income tax reports in the United States show that apparently many rich men have been made richer by the fearful disaster that has come upon their country. The news of hunger and suffering, and unemployment makes grim reading alongside of the item that more than five hundred persons in America have incomes above a million dollars a year.

Is There a Way Out?

Is it possible to put into a few words any practicable suggestion as to a way out of the ancient morass of undue wealth and unfair poverty? Books by the thousands have been written upon the subject, most of them dealing ponderously with complicated economic theories.

Well, the Jesus-way is clear, and that way is the way of brotherhood. They who have should share with those who have not. The Master's word to the rich young ruler was that he should dispose of his estate to the poor. I do not think that the possession of wealth by the rich becoming poor in order that the poor might temporarily gain comparative riches. What is involved is a recognition of the Christian principle of brotherhood: "Bear ye one another's burdens, and so fulfill the law of Christ."

Practically and definitely this means that it is not Christian for the rich to use their possessions as occasions for growing richer; and it also means that the person of wealth should, even at a loss to himself, assure work to his employees, and give generously and sacrificially to others who are in need. It is hardly thinkable—yet the statement of charitable societies seem to prove it. I dare say that the failure of wealth who did not make large contributions to the relief and unemployment agencies. Such a person is wholly unfit to be entrusted with riches.

Perhaps the direst, permanent result of the prevailing depression has been the deep resentment it has created, among the unemployed and the sympathetic fellow-workers, of the failure of the "big business" generally. Already the effects of this are seen in the day's political chaos. No man can surely predict the ultimate outcome of the failure of the wealthy, in a day of unique opportunity, to recognize their stewardship and the solidarity of mankind.

As It Was In Russia.

A few evenings ago I addressed a group of about two hundred and fifty wealthy men, many of them millionaires. I told them if they were living in Russia today, all of them would have had their money taken away from them. Some would have been sent to jail or hard labor in Siberia; and if any escaped this common fate, they would be without food, without lodging permits and without the right to send their children to school.

Most of my audience thought I was using a figure of speech. All were as incredulous as were the Russian aristocrats whom I knew in Russia during the revolution; and whose stock answer to all warnings was "Impossible." The bat-blindness of the privileged classes in a time of crisis or opportunity is one of the most discouraging features of the problem.

WOMEN OFTEN PAY A DOUBLE PENALTY for wearing this gag of selfishness or silly pride. Profuse or suppressed menstruation should never be considered necessary. Painful periods are Nature's warning that something is wrong and needs immediate attention. Failure to heed and correct the first painful symptoms usually leads to chronic conditions with sometimes fearful consequences. Dr. Pierce's Favorite Prescription is for women's own peculiar ailments and can be obtained at any drug store. Every package contains a Symptom Blank. Fill out the Blank and mail it to Dr. Pierce's Clinic, Buffalo, N. Y. for FREE medical advice. Send 10c if you want a trial package.

lem of wealth. The failure of business leaders to avert, mitigate or relieve the recent depression will bulk large in futures books.

The Touch of Irony.

In this old story, so clearly drawn from oriental life, which is our Lesson, there is comfort for the poor and warning for the rich. With subtle irony, Jesus pictures the rich man as having been given funeral; there was no funeral for Lazarus—but his spirit went to be with Abraham.

Most ominous of the warnings in the narrative is the clear teaching that if the foolish rich do not heed the present teachings of the old Book, they will get no special message from the beyond. Either wealth will correct its course by the light of Scripture, or it will suffer the consequences. One would suppose that a serious-minded rich person would at least beat pains to inform himself upon the teachings of the Bible concerning great possessions.

Meanwhile, the truth abides. "Godliness with contentment, is great gain." A rich life is most easily possible without a large store of possessions. Spiritual prosperity is not recorded in Bradstreet or Dimp; but in a more important book.

SEVEN SENTENCE SERMONS

God does not pay every Saturday, but finally he pays—Italian Proverb.

Make yourself an honest man, and you may be sure that there is one racial less in the world.—Thomas Carlyle.

March on, my soul, nor like a laggard stay; March swiftly on, yet err not from the way.—Follow and honor what the past has gained. And forward still that more may be obtained.—Henry Van Dyke.

Keep thy heart with all diligence; for out of it are the issues of life.—Prov. 4:23.

Count yourself a millionaire if you are well and strong.—Charles E. Jefferson.

Live pure, speak true, right wrong, follow the King—Else, wherefore born?—Alfred Lord Tennyson.

It is far easier to institutionalize the spiritual than to spiritualize the institutional.—Dr. G. R. Brooks

*The International Sunday School Lesson for April 19 is: "The Rich Man and Lazarus"—Luke 16:15-31.

CROP OUTLOOK GOOD.

TEAGUE, April 15.—(Spl.)—Pretty weather in this section has brought crop conditions up to date. Gardens, truck farms, and corn are thriving. A number of the early farmers have planted cotton, while the big cotton planting program is just ahead.

It is believed that the cotton acreage in the county this year will be materially reduced.

BOUNDARY LINE REPORT BE TAKEN UP ELLIS COUNTY

W. M. Elliott, Navarro county surveyor, will go to Waxahachie Friday to meet with the Ellis county commissioners court relative to the adoption of the body of a joint report from the surveyors of the two counties, establishing the boundary line between Ellis and Navarro counties.

The Navarro county commissioners a few days ago adopted the report, and Ellis county officials who attended a meeting here were confident that the Ellis county court would also adopt the report.

Work on the establishment of the line was done several years ago. It is expected that the two assessors of the adjoining counties will correct their rolls, getting the proper property and acreage into each county.

The Navarro commissioners agreed with the Ellis county officials to bear the expense, not to exceed \$100 for the placing of concrete markers on the line between the counties along the railroad and highway crossings.

Drank Milk From Rabies Infected Cow; Now Being Treated

OKLAHOMA CITY, April 15.—(AP)—Inoculation of 25 persons with anti-rabies serum after they had drunk milk from a cow that died from the disease was scheduled here today.

City Health Director Miles ordered inoculation after conferring with physicians as to whether drinking milk from an infected cow would prove dangerous.

The cow, bitten by a mad dog, later died of rabies. Meanwhile the milk had been used.

PENNANT FAVORITES TAKE OPENING DAY GAMES IN TEXAS LEAGUE

THREE STARTING HURLERS FINISH GAMES WEDNESDAY

BALLEW'S CIRCUS CATCH SAVES BUCCANEERS; CATS BLANK SPUDS

By BILL PARKER
Associated Press Sports Writer.
The Texas league's three pennant favorites, Houston, Fort Worth and Dallas, opened the 1931 championship race Wednesday with victories, and Thursday were ready to take another fling at their respective pennant enemies.

Of the seven outstanding pitchers who were assigned to opening battles, only three—Herb Thormahlen of Galveston, George Washington Payne of Houston and Dick McCabe of Fort Worth—finished. Harold Carson, San Antonio's starting hurler, was not a winner last year, and was not expected to finish. He lived up to expectations.

Opening Attendance Good.
An estimated combined attendance of 25,200 fans saw the four opening battles. Galveston's estimated crowd of 8,600 paced the opening day trophy seekers, but Dallas, Fort Worth, Houston and San Antonio have yet to stage their opening days. Estimated attendances were: Shreveport, 4,600; Galveston, 8,600; Beaumont, 7,000; and Wichita Falls, 5,000.

As for the games, they were both good and hard. Harvey Ballew's Dallas Steers stopped the Shreveport Sports 10 to 7 with five earned tallies. Lee Meadows lasted only four innings for the Steers, giving up eight hits and six runs. Over the mound for the Steers, Lee Meadows lasted only four innings, but erratic support sent him to the showers in the sixth. Leo Cotter for Dallas, and Pete Lapan for Shreveport, pitched home runs.

A sensational catch by Harvey Ballew in the ninth inning of Nash's line drive which started a double killing, saved the Buccaneers and gave them a 5 to 4 decision over the San Antonio Indians. But for Ballew's fine catch, the Indians would have tied the score.

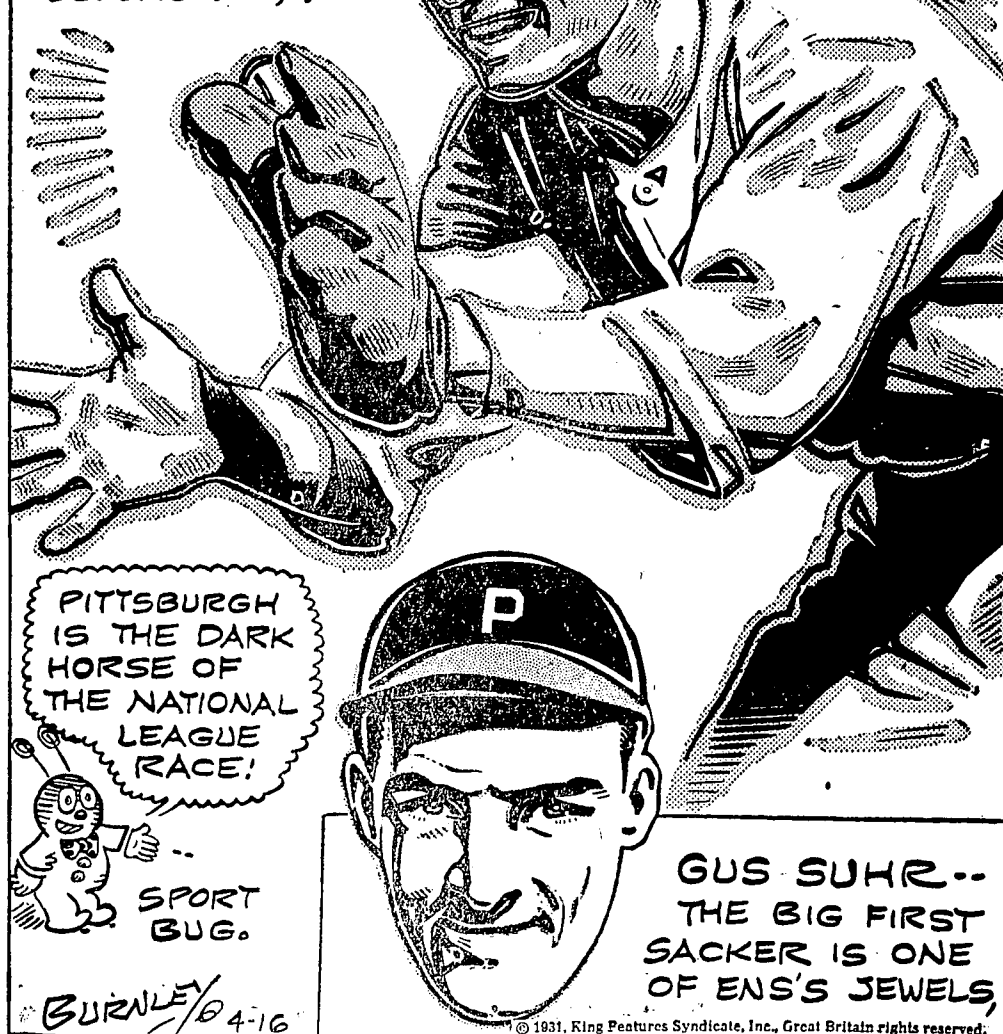

Herb Thormahlen not only started but finished for Galveston, although he weakened perceptibly in the fading innings. Puccinelli, Houston's robust pasture guardian, was the big shot for the Buffaloes in their 7 to 4 win over Beaumont. He drove in four runs, and chipped in with a home run. Payne was touched for nine hits, but Beaumont could not bunt them for a worth while rally. Manager Del Gaudin sent Goldstein to the Exporters mound, but Isadore found the strain too great and went out after giving up six hits and five runs in one inning.

Cats Blank Spudders.
The Fort Worth Cats, 1930 Texas league and Dixie series champions, banged Milt Steingard, Wichita Falls starting pitcher, from the mound and treated Hill and Vincent just as rough to take a 11 to 0 game from the Spudders. The Cats accumulated 16 hits, the longest being a home run by Yarn Yarn in the fifth frame with Milt Steingard. McCabe, who won 20 games for the Cats last year, let the Spudders down with 8 hits.

Plank-Walking Crisis?

By HARDIN BURNLEY

TOMMY THEVENOW-- FORMER PHILLY SHORTSTOP WHO SHOULD STRENGTHEN THE PIRATES DEFENSIVELY!

PITTSBURGH IS THE DARK HORSE OF THE NATIONAL LEAGUE RACE!

SPORT BUG.

BURNLEY 4-16

GUS SUHR-- THE BIG FIRST SACKER IS ONE OF ENS'S JEWELS

EARLY baseball surveys indicate that pennant hopes of the Pittsburgh Pirates largely depend on how two new infielders—Tommy Thevenow and Bill Regan—meet expectations. Both were obtained in winter deals engineered by Manager Jewel Ens, who obtained Thevenow from the Phillies in an exchange involving Shortstop "Dick" Bartell, and then got Second Baseman Bill Regan from the Boston Red Sox. The late Sam Dreyfus, vice-president of the Pirates, was also a principal in these moves that may "make" a winner this year.

However, Regan was benched by an ankle injury soon after training started and the veteran George Grantham covered second in nearly all the circus circuit games. It had been planned to use Regan at the keystone and Grantham as a

pinch-hitter but now it looks as though Bill's bad ankle will indefinitely postpone that plan. Meanwhile, Gus Suhr has been shining at first base—fielding well and hitting admirably. Ens has high hopes that Suhr will come through big in this, his second year as a Pirate.

Regan's hard luck probably was fortunate for Grantham because, though George might have contested with Suhr for the regular initial sack job, training games indicate that the vet could not have supplanted the youngster at first. And at second, Grantham has been showing surprisingly fine form. However, he'll have to continue a hot pace to keep that station when Regan's ankle is O. K. again.

Thevenow seems to have completely recovered from an illness which handicapped him so much with the Phillies, and seemed, for a time, to doom his career after

his brilliant start with the St. Louis Cardinals.

With Thevenow at short and "Pie" Traynor at third, Ens believes he will round out a speedy, peppy infield. And, with the Waner brothers in good shape, and Comorosky in the outposts, the Pirates' team more formidably than they did in 1930. It was an injury jinx which crippled 'em last year at that.

Manager Ens realizes that this is a most critical year for the team and his own future. Pittsburgh must land at least among the first four in club standings this season or else several will have to walk the plank. Last year, when the team fell into the second division, the gate receipts at the Smoky City began to resemble those of Max Schmeling's Joe-Jacobean exhibition tour. So "Boss" Ens knows he must produce a winner in order to hold his job.

SEVEN WITHDRAWN FROM DERBY LIST FOR VARIED CAUSES

KENTUCKY RACING SEASON OPENS AT LEXINGTON ON SATURDAY

LOUISVILLE, Ky., April 16.—(P)—With the Kentucky Derby exactly a month away, seven of the 130 eligibles have been declared out of the race for various reasons.

Back Log and Owsago, prominent nominees owned by Gallaher and Combs, and Aerial Prince, A. Ferguson's eligible, contracted ailments at Lexington and were withdrawn from training. Lord Swift, an imported non-starter, has not developed fast enough and C. E. Stoffer has decided to save him for the Arlington classic and American Derby later in the year. Others withdrawn are Herbert M. W. Fortness, E. B. McLean's Skiffy and James C. Ellis' Reros.

Honors for the fastest mile workout to date are held jointly by Sweep All, owned by Charles T. Fisher, and Joey Bibb, C. C. Van Meter's candidate. Both have breezed the distance in 1:42 3-5 at Lexington. They clipped a fifth of a second off the best mark of Pittsburgher, T. E. Mueller's big colt, which was set at Churchill Downs, a faster track than the Lexington oval.

Kentucky racing will begin at Lexington Saturday with prospects that no derby eligibles will start in the opening day feature, the Ben All handicap, though several have been nominated. The race is over the future course, and owners eligible prefer not to start their hopefuls against older horses except in races nearer the derby distance.

KODAK FINISHING FREE—Bring 2, 4, or 6 rolls. We develop and print absolutely free half of them during April. City Book Store.

GOLF AS CHAMPIONS PLAY IT

AFTER 5 MINUTES OF THIS—THE BALL IS CONSIDERED LOST

When a player has lost a ball, how long should he look for it before allowing the next match to go through?

Answered by WILLIE OGG

The next match should be signalled to go through just as soon as they are ready to play, as this will prevent congestion. Strictly speaking, a ball is not lost until the search has continued for five minutes. However, this rule was made without regard to holding up the play; it was made to determine when a ball was lost.

Schmeling Formally Notified Of Fight Takes Short Rest

SOUTH BEND, Ind., April 16.—(P)—Having received formal notification that his first effort in defense of the heavyweight championship will be made July 3 at Cleveland against Young Stripling, Max Schmeling today went to French Lick Springs, Ind., for a two weeks rest.

The German titleholder and his manager, Joe Jacobs, yesterday were told by Dick Dunn, who will handle the fight for the Madison Square Garden corporations of New York and Ohio, that the new municipal stadium at Cleveland had been selected as the site of the battle.

SPORT NOTES

By PAUL MOORE Daily Sun Sports Editor

Athletes who won places in the Navarro county interscholastic league meet held several weeks ago at the State Orphan's Home will go to Hillsboro this week-end to compete in the district II meet against the winners of the Hill, Ellis, Johnson and Bosque county meets for the right to compete in the state meet which will be held at the University of Texas in Austin early in May.

A number of the local high school winners will spend both days in Hillsboro.

The Home Run Club Wednesday included Klein, Philadelphia Phillies; Hurst, Philadelphia Phillies; Arlett, Philadelphia Phillies; Gehrig, New York Yankees; Averill, Cleveland; Brillheart, Boston Red Sox; Berry, Boston Red Sox; Hornsby, Chicago Cubs; Lench, New York Giants; Johnson, Detroit; Cotter, Dallas; Lapan, Shreveport; Yarnan, Fort Worth; Nash, San Antonio; Ballew, Galveston; Puccinelli, Houston; Holley, Beaumont.

It was claimed that the new baseball in use this year would reduce the number of home runs, but in the first two days of the season, nineteen homers had been hammered out. Klein, Philadelphia Phillies, is leading the pack with three.

Dallas capped the opening tilt of the season Wednesday afternoon against the Shreveport Sports, 10-7, but five of the tallies were unearned. The Sports were giving Lee Meadows, veteran pitcher, plenty of trouble in the fifth inning, and he was relieved

by Minogue, youngster, who was credited with the winning of the game.

Harvey Ballew, product of Navarro county, formerly Southwestern university star, and later with Paris and San Antonio, who received a trial with the New York Giants last year now with Galveston, was the hero of the opening day victory of the Galveston Buccaneers against San Antonio Wednesday. Playing second base, he leaped into the air to spear Nash's terrific drive to start a double play to win the game, 5-1. He also hit a home run.

The Bucs routed Hobo Carson for San Antonio but could do little with the deliveries of Lefty Stein and Tom Estill. Estill, a veteran spitballer, is a product of Navarro county and winters here. There were 8,600 fans on hand in Galveston to give the Bucs a strong bid for opening day attendance.

The bewhiskered House of David team, led by Grover Cleveland Alexander, formerly star major league hurler, will engage the Ennis Southern Pacific nine in Ennis Wednesday night in a nocturnal combat. The House of David club carries its own lighting plant. A number of Corsicana fans are likely to make the trip to Ennis for this game.

The action of the Former Students of Texas A. and M. college a few days ago in passing resolutions pledging support to the athletic authorities of their Alma Mater and inaugurating a "hands off" policy is a commendable

hard, and continue to review the case in various ways.

The situation, it seems to the writer, should be clarified and the former students, students and faculty should get together, decide upon a policy, etc., and stop so much wrangling. Doubtless students, faculty and exes are to blame in some instances, and they should cooperate and pull together for the best interests of the university, instead of a continual wrangle over coaches, individuals, etc., putting down their prejudices, likes, dislikes, etc., for the common good.

Sun want ads bring results.

The rig is being moved in and drilling will start soon under direction of H. P. Dunn, superintendent for the concern. The well is in a 7,000 acre block which the E. L. Smith Oil company has in that territory, seeking a parallel structure to the Mexia-Wortham-Powell fault line.

W. A. Register, Mexia, is geologist who made the location.

would construct a half-mile stretch of road from Dawson to the highway 31 location, the state would build an all-weather road from the point one-half mile north of Dawson to the point north of Purdon and also the strip between Dawson and the Hill county line, giving an all-weather road from Corsicana to Waco on highway 31.

In his announcement, made at the National Aircraft show, he said the proposed line will take off at Charleston, S. C., for London, England, via Bermuda and the Azores, a span of approximately 4,000 miles.

Representative McGregor Austin said the bill would prevent the county commissioners from mortgaging the people's money to provide a check on the expenditure of public funds.

Under another provision, the bill would permit counties having a valuation of more than \$8,000 to issue warrants up to \$500 for each \$1,000 valuation, the total to exceed \$100,000 for any year.

This provision would apply to time warrants to pay all or part of any contract. Counties with a valuation less than \$8,000,

"A Chicken Will Drink Any Kind of Water!"

Yes, and so would you if you couldn't get any better. Pure, clean water is just as essential to fowls and animals as to humans.

Here is a drinking fountain that will keep the watering pan clean in the chicken yard. Just two circular pieces of pine, one larger than the other, and then nail lath to them as shown. There are a hundred handy helps for which we have plans, including those of the "Farm Building Service Bureau," of Texas A. and M. College. We invite you to come to our office and look them over. There is no obligation involved.
